

LAKELAND WOODEN BOATS

12' MALLARD

DESIGNED by Andrew N Wolstenholme

*A Gunter Rig Sail Boat of Glue Clinker Ply Construction.
Designed to retain the classic character of boats of old.
Built using modern materials, the Mallard is a lightweight boat with good
performance and easy maintenance.*

CONSTRUCTION

The hull is constructed with 10 planks per side from Lloyd's Register marine plywood bonded with epoxy resin.

The hull backbone, stem and internal fittings are in hardwood / marine plywood.

All woodwork is epoxy coated and then finished in Awlgrip paint or varnish.

Brass keelband, rowlocks, chainplates and goosenecks are included.

Stainless steel standing rigging, polyester running rigging.

Sails are in 5 oz U.S. Cream or Tan Polyester.

Wooden lifting rudder blade and centre board, Epoxy coated and E-glass sheathed.
